

Publication information

I invite you to write an article in English based on material, for example: diploma thesis (engineering, master's or doctoral studies), ERASMUS. A scientific article may have a maximum of 15 pages (A4).

Click and see **JTL (Journal of Translogistics)**:

<https://journaloftranslogistics.pwr.edu.pl/>

The articles are reviewed by 2 reviewers.

Once you get feedback, you will have to improve the article.

Then the Reviewer will check your work again.

We select reviewers randomly, but certainly from another university, and most often from another country ... but You can suggest to the Editors who you would like to avoid and who you would recommend. Finally, before publishing your article, the Editors will register it in the DOI system (<https://www.doi.org/>).

An article always has certain permanent elements, just like a diploma thesis ☺

You can read about the details on the JTL's website and about the rules for preparing and submitting an article to the editor.

How to submit an article to the editor?

It's simple, you just need to click on the link that will guide you step by step:

<https://www.editorialsystem.com/tlogen/>

We are waiting for your article until January 12, 2026.

Article publication is free of charge.

The article is published digitally on the website almost immediately after acceptance, and once a year in paper form.

Detailed guidelines for Authors, including evaluation criteria, can be found on the journal's website:
